

**12th INTERNATIONAL CONFERENCE
FOOTBALL & RESEARCH
Université de Lyon1 – UFR STAPS
Campus de la Doua**

**Football by and for women
State of play and perspectives**

The research units L-Vis et LIBM from the University of Lyon1, in partnership with the Association of Francophone Football Researchers (AC2F) organise from 20th to 22th June 2019, an international conference about “Football by and for women”.

Call for papers

The organisation of the 2019 FIFA Women’s World Cup constitute a key moment in the development strategy the French Football Federation has initiated for about a decade regarding women’s football. With an increase from 60 521 members in 2007 to 159 128 in 2017, the football world is facing a significant growth of the number of participating and engaged girls and women. However, women still represent only 6% of the overall number of members of the French Football Federation that indicates a large margin for progression and has justified, mainly from 2012, an ambitious policy for the promotion of girls and women’s engagement under the direction of Brigitte Henrrique.

Several areas of development are considered from the improvement of the social conditions of participation such as the improvement of sports facilities and particularly changing rooms, the development of dedicated school pathways, a growing number of young elite athletes’ training centres (*pôles espoirs*) all over the territory, and the formation of more than 200 elite athletes, to the promotion of women in training and coaching, refereeing, volunteering, management and governance roles.

This international conference about “Football by and for women” aim first to review the state of scientific knowledge about football played, supervised, organised and led by and for women. Particularly, it aims to be a privileged forum for a multidisciplinary questioning that combines diverse scientific approaches around the current issues regarding the biological, individual and social conditions of women’s football performance, participation and involvement, in order to foster new and innovative perspectives of development. The conference will also be the place to

examine more broadly the place and scope of women's football via the analysis of its events and competitions, its mediatisation, its professionalization, its management and governance, its public perceptions and representations, etc.

The international "Football by and for women – State of play and perspectives" organised by the L-Vis and LIBM research units from the university of Lyon 1 in partnership with AC2F gathers researchers from all scientific fields and football practitioners the biological, individual and social conditions of women's performance and participation in football. Although not exclusive, the following topics can represent areas of communication:

Theme 1: Biological conditions of participation and performance

- Bioenergetics and physiology of performance
- Biomechanical and neuromuscular determinants of performance
- Mental processes and performance
- Characterisation of training and games' constraints
- Tiredness and overtraining
- Injuries and prevention

Theme 2: Individual and social conditions of participation and performance

- Football socio-demography (evolution, social and/or geographical distribution, etc.)
- Sport and football policy (place and role of women, policy types, etc.)
- Supervision, coaching and volunteering
- Professionalization/sponsorship/management
- Mediatisation
- Public perceptions and representations

Submission

For Individual propositions (oral communication or poster), authors should submit an abstract, from 2 500 to 3000 characters (space included) including the title; authors' name, status and affiliation; main theme and scientific discipline; problematic and research question; methodology; results (or expected results); references.

For Workshop proposals, convenors should submit an abstract of 1 500 characters (spaces included) presenting the workshop's overall problematic, and the 3 or 4 abstracts of 1 500 characters (spaces included) of the workshop's communications.

Individual propositions and workshop proposals should be submitted before **the 7th February 2019** via the following website:

<https://cdmf2019.sciencesconf.org>

Accepted communications will follow a standard format: 20 minutes of oral presentation followed by times of questions and discussion with the audience. Other poster proposals are possible: to be specified at the time of the communication proposal.

Key dates

Call for paper: 20th October 2018

Deadline for abstract submissions: 7th February 2019

Information to authors about abstract acceptance: 25th March 2019

Registration period: from 15th January 2019 to 10th June 2019.

Conference: from 20th to 22nd June 2019

Registration and fees

Fees	Before 15th April 2019	After 15th April 2019
Academics and researchers	120 euros*	150 euros*
Others	50 euros**	50 euros**
Students & Unemployed	Free	Free

* Fees include conference registration, and lunches from Thursday 20th 2019 to Saturday 22nd June 2019.

** For non academics a daily fee of 20 euros is possible.

Scientific Valorisation scientifique

After the conference, communicants may be invited to propose their contribution for inclusion in a collective book or a special issue of a scientific journal. Only the most advanced articles according to the calendar and scientific criteria chosen will be selected.

Organising committee (to be finalised)

Blache Yoann, Bodet Guillaume, Charroin Pascal, Drivet Noémie, Épron Aurélie, Guillet Emma, Hautier Christophe, Honoré Georges, Jars Jean Michel, Lemoine Alain, Lorca Pierre, Louzada Bruno, Martin Cyril, Martinet Guillaume, Meyer Stéphane, Mousset Kilian, Nicaise Virginie, Ottogalli-Mazzacavallo Cécile, Servien Elvire, Turpin Bernard, Cece Valérian, Liehnart Noémie.

With the contribution of the Master's students Egal'APS (Equality in and by Sport and Physical Activity), of the Master's student PPMR (Preparation of the athlete: physical, mental and re-athletisation aspects) and the Master's student MOS (Management of sports organisations) of the UFR STAPS de Lyon1.

Scientific committee (to be finalised)

For social, human and intervention sciences:

Rix-Lièvre Géraldine, PU, ACTE, Clermont Ferrand

Parmentier Charlotte, MCF, LABERS, Brest

Mennesson Christine, PU, CreSco, Toulouse

Grun, Laurent, Docteur Staps, PRAG EPS, CRULH, Metz
Stanislas Frenkiel, MCF, SHERPA, Artois
Scelles Nicolas, Senior Lecturer, Manchester Metropolitan University
Chalabaev Aina, MCF HDR, SENS, Grenoble
Lentillon-Kaestner Vanessa, Professeur, Haute Ecole Pédagogique Vaud, Suisse
Breuil Xavier, docteur, PRAG Histoire
Cogérino Geneviève, PU émérite, L-Vis, Lyon1
Fontayne Paul, PU, CeRSM, Nanterre
Ottogalli-Mazzacavallo Cécile, L-Vis, Lyon1
Bodet Guillaume, L-Vis, Lyon1
Nicaise Virginie, L-Vis, Lyon1
Epron Aurélie, L-Vis, Lyon1
Martinent Guillaume, L-Vis, Lyon1

For life and health sciences :

Chamari Karim (Aspetar, Qatar) (sous réserve)
Tourny Claire, PU, CETAPS, Rouen
Morin Jean-Benoit, PU, LAMHESS, Nice
Boisseau Nathalie, PU, AME2P, Clermont Ferrand
Duclos Martine, PU-PH, UNH, Clermont Ferrant
Dellal Alexandre, PhD-HDR, LIBM, Centre FIFA Paul Santy, Fédération Algérie
Vigne Gregory, PhD, Centre de Santé Paul-Santy, Lyon
Servien Elvire, PH, HCL, Lyon
Edouard Pascal, MCU-PH, LIBM, Saint-Etienne
Samozino Pierre, MCU, LIBM, Chambéry
Martin Cyril, LIBM, Lyon1
Hautier, Christophe, LIBM Lyon1
Blache Yoann, LIBM, Lyon1
